Security Alarm Monitoring + 2-Way Voice

Our highly trained Operator will receive your alarm signals 24/7 in our own UL and 5-Diamond certified Central Station located in Beaverton. We will follow YOUR specific instructions to handle each signal as directed and dispatch appropriately. A weekly timer test and 2-way Voice is included in this service, so when your alarm is activated our Operator will speak directly through your alarm panel to see how we can help.

Total Connect Mobile

This service allows you to stay connected to your system while you are away from your home. Arm or disarm your system, check the status to see who is coming and going, or receive notifications via text message. Save time, money and energy by managing your system from your smartphone.

LTE Cellular Monitoring

We utilize LTE cellular technology through Verizon Wireless and AT&T to ensure reliable communication between your alarm system and our Central Station in Beaverton. In addition to providing significant cost savings over phone lines, this technology also provides faster transmission speeds to aid in a quicker response time.

Essential Alarm Response

First Response provides professionally trained alarm response Officers that can be dispatched to your location 24/7. Our responding Officer will perform a thorough exterior check at your location to verify there is no sign of forced entry or damage; \$60 fee per response. You will receive a written report providing all necessary information within 12 hours of the response.

Essential Plus Alarm Response

This premier service is an upgrade from our 'Essential' service as it includes one alarm response monthly, or choose to exchange 2 unused months annually for 1 day of Vacation Watch. Our responding Officer can also perform an interior check at your location if desired; \$60 fee per additional response. You will receive a written report providing all necessary information within 12 hours of the response.

Video Clip Notifications

With this service, our Motion Viewer will send you clips of video immediately following motion detected. These clips can be sent to iOS or Android and they will also be stored in the cloud for 30 days. Call for details or to see a live demonstration!

All First Response systems have Lease, Reporting, Extended Maintenance, as well as Video Monitoring services available. 36 month agreement required.
